

DEFENZO

LINEO AC

Cable for charging electric cars and hybrid type 2.

Defenzo Lineo AC is a durable and resistant cable designed for charging electric vehicles using alternating electricity.

Thanks to its ergonomic plug shape, it is easy to use. The Type 2 plug ensures compatibility with most vehicles.

Constructed with high-quality materials and a solid design, Defenzo cables are built to withstand everyday use.

The cable meets relevant regulations and standards, including the IEC 62196-2-2011 standard for charging plugs and sockets for alternating current vehicles.

Available in various lengths, each cable comes with a transport bag included.

TECHNICAL DATA

Model	Defenzo Lineo AC7	Defenzo Lineo AC11	Defenzo Lineo AC22
Operating voltage	1 phase; 200-240V	3 phases; 380-440V	3 phases; 380-440V
Rated power	7 kW Max	11 kW Max	22 kW Max
Voltage frequency	50/60Hz		
Protection class	IP55		
Length	5 / 7 / 10 m		
Mechanical lifespan	up to 10,000 charges		
Mechanical resistance	Fall from a height of 1 meter and the pressure of a vehicle weighing 2 tons.		
Insulation resistance	>100M ohms (DC 500V)		
Operating temperature	-30°C ~ +50°C		
Operating humidity	5% ~ 95% relative humidity, non-condensing		
Warranty	2 years
